Buntings' Offer Newer Introductions

for a More Beautiful Home Garden

The New THORNLESS MORaine LOCUST

(Plant Patent No. 836.) A round headed tree when young but tall and vase-shaped when older, attaining an ultimate height of about 80 to 100 feet. It is hardy, thrives under city conditions, produces good growth in heavy or light soil and is long-lived. A rapid growing tree, thornless and seedless. Most of its small leaflets drift into the lawn between the blades of grass, making but little fall clean-up necessary. Price: 6 to 7 ft. branched trees, \$7.50 each.

Now! A REAL DWARF PINK DEUTZIA

(*Deutzia gracilis rosea*)

An excellent low growing shrub heavily laden with pinkish flowers in May. A useful facing shrub for planting in front of taller growing varieties or where space is limited. Price: 15 to 18 inch, \$2.00 each.

We Bring You From England, the Lovely New HYPERICUM HIDCOTE

Grows into a twiggy shrub about 18 inches tall and about the same diameter. Throughout the summer it is covered with bright yellow, cup-like flowers about 2 inches in diameter. During severe winters it sometimes freezes back to the ground, but this doesn't matter because it springs up from the base producing each summer its masses of blooms. A fine low-growing plant for the foreground in any planting. Flowers are fragrant and appear late June, continuing until mid-October. Price: 2-yr. plants, \$1.75 each.

The Lovely New LYNWOOD GOLD FORSYTHIA

This splendid new Forsythia originated in Ireland. Branches are erect, and covered with golden yellow flowers from top to bottom, very full and not affected by the weather. Excellent for cutting and flowering in the house during the winter months. Price: 2 to 3 ft., \$2.00 each.

DWARF RED BARBERRY, CRIMSON PYGMY

From Holland came this miniature form of the Red-Leaved Barberry. Mature plants, unpruned, measure about 20 inches in diameter and 8 inches in height. Makes a fine showing in front of any shrub planting. Plant in full sunlight. Price: 2-year plants, \$2.00 each.

BUNTINGS' FLOWERING SHRUBS

HYDRANGEA OTAKSA. Large blue or pink blooms in midsummer (color depending upon soil acidity); either color most attractive. Low-growing plant, popularized by the extensive plantings at Atlantic City, N. J. **Price: Strong, 2-year plants, \$1.75 each.**

KERRIA. A rather tall, erect growing shrub bearing bright yellow, double flowers throughout the summer. **Price: 18 to 24 inch, \$1.50 each.**

ALMOND, PINK FLOWERING. A beautiful small shrub, bearing an abundance of small, double, Rose-like flowers, closely set upon twigs, before the leaves appear in early spring. **Price: 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.**

SPIREA THUNBERGI. Charming rosettes of pure white flowers in May. Beautiful, dense, fern-like foliage. An excellent low-growing plant for foundation plantings. Its blooms are produced early, at a time when thoroughly appreciated. **Price: 2 to 3 ft., \$1.50 each.**

SPIREA ANTHONY WATERER. A dwarf and very dense little shrub which bears flat clusters of rose-pink flowers all summer. If bloomed heads are removed, it will continue to flower more abundantly. **Price: 12 to 15 inch, \$1.00 each; 15 to 18 inch, \$1.25 each.**

FLOWERING QUINCE. The popular Cydonia. Literally covered with brilliant double scarlet blooms in early spring. **Price: 18 to 24 inch, \$1.00 each; 2 to 3 ft., \$1.25 each.**

SHRUBS — Practical, Inexpensive

HONEYSUCKLE, Tartarian Pink. A profusion of lovely flowers make a delightful contrast with bright green leaves in late spring. **Price:** 18 to 24 inch, 85c each; 2 to 3 ft., \$1.00 each.

SWEET SHRUB (*Calycanthus floridus*). Often called Strawberry Shrub. Neat, compact, with large leaves and small, double, dark mahogany blossoms with rare fragrance. Blooms May-June with a few blossoms from time to time during summer. **Price:** 1½ to 2 ft., \$1.00 each.

WEIGELA VANICEKI. Vigorous growing red Weigela similar in flower and foliage to Eva Rathke. One of the finest red Weigelas. Blooms heavily in the spring, and again there is a fine showing of bloom in late summer and autumn. **Price:** 1½ to 2 ft., \$1.25 each; 2 to 3 ft., \$1.50 each.

HYDRANGEA, HILLS OF SNOW (*Hydrangea A. G.*). Known for its profusion of round, snow-white blooms which appear early in July and last until late September. Very hardy. **Price:** 18 to 24 inch, \$1.10 each; 2 to 3 ft., \$1.35 each.

HYDRANGEA P. G. Pyramids of creamy white flowers which are tinged with pink in late summer. Very hardy, popular plant. **Price:** 18 to 24 inch, \$1.00 each; 2 to 3 ft., \$1.25 each.

CORALBERRY or INDIAN CURRANT. A dwarf shrub which thrives in the shade. The coral-colored berries last until late winter, and are produced profusely. **Price:** 1½ to 2 ft., 85c each; 2 to 3 ft., \$1.00 each.

WEIGELA ROSEA. Best known and most extensively planted of the pink Weigelas, blooming abundantly in May and June. Remarkably showy, trumpet-shaped flowers of brilliant pink in May and June. **Price:** 1½ to 2 ft., 85c each; 2 to 3 ft., \$1.00 each.

WEIGELA, Eva Rathke. Free bloomer, beginning in May and blooming intermittently until late fall. Bright red flowers. Dwarf grower, suitable for foundation plantings. **Price:** 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.

CRAPE MYRTLE. (Spring planting only.) Strong growing shrub, adapting itself to almost any soil and condition except in northern sections where temperatures often drop below zero. Does very well south of Philadelphia. Leaves bright green; the blooms are large panicles of crinkled little florets. Blooms late July and August. Colors: pink or red. **Price:** 2 to 3 ft., \$1.75 each.

for Modern Plantings

Ile de
France

Charming

BUDDLEIA (Butterfly Bush)

Blooms early summer to late fall. Medium height. Weeks of colorful bloom in panicles up to 18 inches long. Fragrance attracts butterflies, giving it the name commonly used.

ILE DE FRANCE. Purplish blue.

CHARMING. Long panicles of pink.

DUBONNET. A dark wine-dubonnet.

Price: Choice of varieties, 18 to 24 inch, 85c each; 2 to 3 ft., \$1.00 each.

Dubonnet

SPIREA, BLUE MIST. Low growing shrub covered with numerous clusters of powdery blue, fringed flowers from August to frost. The foliage is lanceolate and slightly toothed and silvery green in color. Hardy. Price: 2-yr. No. 1 grade, \$1.25 each.

ENCHANTMENT MOCKORANGE. (Double.) Produces profuse, long, thick panicles of double white flowers on erect branches in early spring. Sweetly fragrant. Very hardy. Price: 2 to 3 ft., \$1.25 each.

DOUBLE BRIDALWREATH SPIREA (*Prunifolia plena*). Small, Plum-like double white flowers produced profusely in early spring. Red fall foliage. Price: 2 to 3 ft., \$1.25 each.

SPIREA VAN HOUTTE. A medium sized shrub covered in late May and June with pure white flowers. Foliage is dark green and fine textured. A plant with many uses, this is a well known, popular shrub. Price: 18 to 24 inch, 85c each; 2 to 3 ft., \$1.00 each.

BEAUTYBUSH (*Kolkwitzia amabilis*). Completely covered with beautiful cameo-pink flowers during June and July. Acclaimed as the most beautiful and useful flowering shrub. Ideal for planting on the lawn, in the shrub border or any place where a blaze of color is desired. Price: 1½ to 2 ft., \$1.25 each; 2 to 3 ft., \$1.50 each.

ALTHEA (*Rose of Sharon*). Upright, very hardy. Color spot of the fall. Begins blooming in early summer and continues through the fall months. Your choice of red, white, pink or blue. Price: 1½ to 2 ft., 85c each; 2 to 3 ft., \$1.00 each.

GOLDFLAME HONEYSUCKLE

Blooms all summer. Showy tubular flowers, flame-red outside, bright yellow inside, borne in clusters. Delightfully fragrant. Price: 2-yr. vines, \$1.00 each.

PURPLE WISTARIA. Purple blooms in great profusion during spring. Fine for porches and trellises. Price: Strong, 2-yr. vines, \$1.50 each.

TRUMPET VINE (*Bignonia radicans*). Orange flowers in midsummer. Price: 2-yr. vines, 75c each.

SILVER LACE VINE (*Polygonum auberti*). Very fragrant white flowers during the month of September. Price: 2-yr. vines, \$1.00 each.

CLEMATIS, LARGE FLOWERED. Very popular. Profusion of large flowers during summer and autumn. Varieties: **Andre** (red); **Henryi** (white); **Jackmani** (purple); **Ramona** (blue). Price: 2-yr. vines, \$1.50 each.

Vines that Climb and Creep

for the Out-of-Doors Nature's Finest Draperies

CLEMATIS PANICULATA. Flowers snow-white during entire summer and autumn. Price: 2-yr. vines, \$1.00 each.

BOSTON IVY (*Ampelopsis veitchii*). Grows very dense. Foliage green and very healthy. Price: 2-yr. vines, \$1.00 each.

HALL'S HONEYSUCKLE. White flowers from May until November. Price: 2-yr. vines, 75c each.

AMERICAN BITTERSWEET (*Celastrus scandens*). Light green glossy foliage; large clusters of orange-scarlet berries retained throughout the winter. Price: 2-yr. vines, 75c each.

REGEL'S PRIVET. A low, spreading shrub, prized for its horizontal branching and for its dense foliage which turns to a purple-bronze in the fall. Blooms in June with small lateral clusters of white flowers, followed by little blue-black berries which look like small bunches of miniature Grapes. See field illustration on page 39. Price: 18-24 in., \$1.00 each.

Green-leaf Barberry

Hedges

Beautiful Living Fences

Protect Your Property
the Inexpensive Way

GREEN-LEAF BARBERRY. Well known; needs little description. Dark green leaves which turn to red and yellow in the fall. Thorny bush which makes good hedge or specimen plants. Graceful, drooping branches are loaded late in summer with bright red berries that hang on most of the winter.

	10	100
2-yr., 12 to 15 in.	\$3.50	\$25.00
3-yr. heavy transplants, 18 to 24 in.	6.00	50.00

RED-LEAF BARBERRY. Same as the popular, well known, hardy-as-an-Oak Green-Leaf Barberry, except the foliage is deep red in the spring and deep purple during the summer months. Popular for planting in clumps, hedges, as well as in foundation plantings.

	10	100
2-yr., 9 to 12 in.	\$4.00	\$30.00
2-yr., 12 to 18 in.	4.50	35.00

AMUR RIVER NORTH PRIVET. Foliage small and attractive. Vigorous and very compact grower. Extremely hardy and will stand the low temperatures of the northern states. Particularly recommended for planting in sections where the temperature drops to zero or below.

CALIFORNIA PRIVET. America's leading hedge plant. Its foliage is of the deepest, richest shade of green and stays on until late winter. Very hardy; easily and quickly pruned.

PRICES OF AMUR RIVER NORTH AND CALIFORNIA PRIVET

	10	100	1000
12 to 18 in.	\$2.50	\$22.00	\$180.00
18 to 24 in.	3.00	25.00	225.00
2 to 3 ft.	4.00	35.00	300.00
3 to 4 ft.	4.50	40.00	350.00

SPIREA VAN HOUTTEI (Bridal Wreath). Beautiful hedge with masses of white flowers in early spring. Grows 6 to 8 feet high. Plant 12 to 18 inches apart.

	10	25	100
12 to 18 in., hedge grade	\$3.50	\$7.50	\$25.00
18 to 24 in., hedge grade	4.00	8.75	30.00

MULTIFLORA ROSE

Bull Strong, Hog Tight, Horse High.

(*Rosa multiflora japonica*). Is fast becoming one of America's most popular "living fences" on the American farm. Not recommended for small town lots due to immense growth. Produces an impregnable barrier for all livestock within 3 or 4 years. Its density provides a valuable windbreak. Its tight, stock-holding mat of thorns provides an excellent game refuge for wildlife cover, and adds beauty to the farm, producing white blooms profusely in early spring followed with red berries in the fall and winter. Price: 9 to 12 in. plants, 25 for \$2.25; 50 for \$4.00; 100 for \$7.50; 1000 for \$70.00.

PRACTICAL GARDEN PERENNIALS

More Beautiful year after year

Delphinium

Hollyhocks

Hardy Carnations

DELPHINIUM. One of the most popular and best known perennials. The flowers are various shades of blue, produced on long stems, starting in June.

HOLLYHOCKS. Exceptionally lovely for backgrounds. Will bloom this summer and continue to bloom heavily for many years thereafter. Colors: red, pink, white and yellow.

HARDY CARNATIONS. Masses of lovely flowers all season. Large, fragrant blooms on long stems, excellent for cutting. Colors: red, pink, white and yellow.

BABY'S BREATH. Small, white flowers from June to September; excellent for cutting.

COLUMBINE (Aquilegia). This improved form of Columbine produces flowers 3 to 4 inches across, with long spurs, borne on graceful stems.

COREOPSIS (Tickseed). Pure yellow flowers from June to frost.

DAY LILY (Hemerocallis). Bloom July and August; rich golden yellow to deep golden orange.

FALSE DRAGONHEAD. Flowers lively pink, similar to Snapdragon. Blooms from July to September. Thrives in all soils.

GAILLARDIA (Blanket Flower). Blooms from June to November; brilliant orange-yellow, red centered flowers.

SPEEDWELL (Veronica). Rich blue flower spikes in August.

6 for \$2.40.

BLEEDING HEART. A favorite in Grandmother's garden a half century ago, it lends a fine romantic touch to any garden. Thrives in partial shade, but will grow in full sun. The plant grows larger, more beautiful each passing year.

Buntings' Superior PHLOX

Immense flower heads are carried on straight, strong stems, from mid-summer to autumn. The plants we send you bloomed in our fields last summer. They will bloom for you this summer and for years to come. Hardy, strong growers, producing dazzling color year after year. Colors: white, pink, red and violet-blue. Price: 50c each; 3 for \$1.35; 6 for \$2.40.

Evergreens for Permanent Planting

Grown at Buntings' Famous Nurseries

Avail Yourself of Buntings' Lovely Well Grown Evergreens for a Dignified Foundation Planting

PFITZER JUNIPER. Broad, bushy, with gray-green branches. The most popular of the spreading Junipers. Price: 10 to 15 in., \$2.25 each.

AMERICAN ARBORVITAE. Foliage flat, set on edge; color bright green. Somewhat conical in form, grows well under adverse conditions. Price: 12 to 15 in., \$2.25 each.

CHINESE ARBORVITAE. Tall, slender, fast grower; dark green foliage. Price: 18 to 24 in., \$2.50 each.

GOLDEN ARBORVITAE. Conical form, very dense, compact, bright yellow foliage. Price: 8 to 10 in., \$2.25 each.

GLOBE ARBORVITAE. Very dwarf in growth, round or globe shaped; foliage dark green. Does not require shearing. Price: 8 to 10 in., \$2.25 each.

PYRAMIDAL ARBORVITAE. Tall, slender; dense dark green foliage. The best Arborvitae grown. Price: 15 to 18 in., \$2.50 each.

GREEK JUNIPER. An attractive, pyramidal tree, with compact, bluish green foliage. Price: 10 to 12 in., \$2.25 each.

IRISH JUNIPER. Trees form dense, slender cones of silvery green. Price: 18 to 24 in., \$2.75 each.

RETINOSPORA PLUMOSA. A handsome evergreen with feathery, light green foliage. Makes a broad, symmetrical tree. Stands shearing well. Price: 12 to 15 in., \$2.25 each.

RETINOSPORA PLUMOSA AUREA. Pyramidal growing evergreen with plume-like, golden tipped foliage. Generally used in groups of evergreens for a contrast in color. Price: 12 to 15 in., \$2.25 each.

HICKS' UPRIGHT YEW. A beautiful, slow growing evergreen, with rich dark green foliage throughout the year. Price: 12 to 15 in., \$3.25 each.

SPREADING YEW. A compact, spreading variety; dwarf habit of growth. Very hardy; handsome dark green foliage. Almost covered with bright rose-red fruits in autumn. Price: 12 to 15 in., \$3.25 each.

UPRIGHT JAPANESE YEW. An upright, cone-shaped form; slow growing; dense green foliage. A very desirable type. Price: 12 to 18 in., \$3.25 each.

YEWS

The Aristocrats of Evergreens

Noted for its beautiful dark green foliage and freedom from disease. See descriptions of varieties above. They will definitely add to the beauty of your planting. Especially recommended in the group illustrated below for landscaping each side of your doorway. **Special offer: One each of Hicks' Upright Yew, Spreading Yew and Upright Japanese Yew, 12 to 15 in. size.**

The very popular Pyramidal, 15 to 18 in. grade, and the formal Globe, 8 to 10 in. grade, an excellent combination for a doorway planting, (see further descriptions above), especially priced at

\$4.50

Globe Arborvitae

Pyramidal Arborvitae

Broadleaf Evergreens

The Aristocrats of the Evergreen Family

Choose varieties from this list for specimen or group planting on your lawn. Their blooms will enhance the beauty of your landscape, add a blaze of color to your outdoor decoration and provide a source of continued satisfaction. Beautiful throughout the year.

DWARF ENGLISH BOXWOOD

This is the round-leaved, slow-growing, compact Boxwood frequently found on old estates in Virginia and along the East Coast. Specimens over one hundred years old, having a spread of 8 or 10 feet, are still the pride of many of the famous gardens. Will grow in sun or partial shade; beautiful throughout the year. **Price: 6 to 8 inch, \$1.25 each.**

EUONYMUS PATENS

The most satisfactory of all Euonymus. Low, dwarf grower; extremely hardy plant. Produces white flowers in the spring, followed by red berries which remain on the plant until well into the winter. An excellent foundation plant. **Price: 15 to 18 inch, \$2.50 each.**

EVERGREEN PRIVET (*Ligustrum Lucidum*)

One of the most popular Broad-leaved Evergreens. Ideal for foundation planting, borders and groups. Adapted to both full sunlight and partial shade. White flowers in summer, blue-black berries throughout the winter. **Price: 12 to 15 inch, \$1.75 each.**

ABELIA GRANDIFLORA

One of the most beautiful and useful of all flowering broadleaves. Glossy foliage which is evergreen in areas where temperature does not drop below zero. Grows to a height of about 5 to 6 feet, making it ideal for foundation planting; also used for hedges and shrub borders. Small, light pink, tubular blossoms appear in July and continue until frost. **Price: 15 to 18 inch, \$1.50 each.**

JAPANESE HOLLY (*Ilex Crenata Rotundifolia*)

A beautiful, slow-growing Broad-leaved Evergreen. Oval, dark green, glossy leaves; blue berries. One of the best dwarf evergreens suitable for foundation plantings. **Price: 10 to 12 inch, \$1.95 each.**

PLEASE NOTE

Our Evergreens and Broadleaves are carefully grown, properly spaced in the nursery rows for symmetrical development. They have been transplanted, and will be carefully dug to get all the tender rootlets. The roots will be puddled in mud and wrapped in damp moss for shipment. Plant immediately after moss is removed from roots. This method of packing saves the vital roots, insures good growth and makes possible low cost shipments.

PYRACANTHA LALANDI

(Firethorn)

Orange-red berries against deep green foliage provide a handsome sight in fall and winter.

Price: 15 to 18 inch, \$2.50 each.

Euonymus patens

Azalea hinodegiri

Azaleas - Lovely in Every Garden

A BURST OF FRESH COLOR IN EARLY SPRING

AZALEA HINODEGIRI. Most popular of all evergreen Azaleas. Attractive deep green foliage and bright scarlet flowers completely cover the plant.

AZALEA, CORAL BELLS. Brilliant, coral-pink flowers, showy against the dark green foliage.

Price: 6 to 8 inch plants, \$1.85 each.

The Red Berried American Holly

(*Ilex Opaca*)

The familiar Christmas Holly. Very attractive, dark green, spined leaves throughout the year; the red berries are formed in clusters in late fall and hang on throughout most of the winter months. A slow growing, pyramid-shaped tree, excellent for lawn planting. **Price: 12 to 18 inch, \$2.25 each.**

Buntings' Finest Lawn and Garden Trees

*Upright Flowering Cherry
along Potomac Basin in
Washington, D. C.*

Well known because of the renowned plantings in Washington. They are now so well established and in such demand that you need not be told of their value for ornamental purposes.

All Straight Stemmed Well Rooted Specimens

TWO CHERRY TREES DELUXE!

KWANZAN UPRIGHT FLOWERING CHERRY

Double dark pink blossoms in early spring. Upright, strong growers, frequently blooming the first season after being transplanted. Blossoms large, full, literally covering the stems. **Price: 4 to 5 ft., \$4.00 each.**

WEeping FLOWERING CHERRY

A weeping form of the popular Double Flowering Cherry. Has slender, pendulous branches hanging nearly to the ground. In early May the branches are strung with showy rose-pink flowers. **Price: 2-year heads, 5-6 ft. stems, \$7.50 each.**

WEeping FLOWERING PEACH

Beautiful, small trees, equally charming for the small garden or as a specimen on the lawn. Rich, brilliant red flowers, closely set on twisting, arching branches. **Price: 2-year, No. 1 trees, \$2.50 each.**

PURPLE-LEAF PLUM

A profusion of blooms in May. Deep bronzy purple foliage through spring months, lighter in color during summer, but attaining brilliant color again in the fall. **Price: 4 to 5 ft., \$2.45 each.**

JUDAS TREE (Redbud)

A small tree or large bush with a broad, round top. In May, before the leaves appear, it bears dense masses of deep rose-pink flowers. **Price: 3 to 4 ft., \$3.00 each.**

Weeping Cherry

ELEYI FLOWERING CRAB

Attractive red foliage in spring. Smothered with large reddish pink flower clusters during flowering period, and followed by conspicuous brilliant scarlet fruit that is excellent for jelly. Very showy. **Price: 4 to 5 ft., \$2.00 each; 5 to 6 ft., \$2.40 each.**

MIMOSA (Silk Tree)

Acacia-like foliage. Low, flat-topped tree, almost umbrella-like. Feathery, fragrant pink blossoms in summer. **Price: 5 to 6 ft., \$3.50 each.**

*Japanese
Magnolia*

Deciduous trees, growing only 12 to 15 feet in height, branched from the ground. Tulip-like flowers are produced in early spring just ahead of the foliage. Ideal for use as specimens for lawn planting. Your choice of varieties: *Sculptureana*, pink flowers; or *Liliflora Nigra*, with flowers that are rose-purple outside and white within. **Price: 18 to 24 inch, \$2.75 each.**

Red Flowering
Dogwood

The King of the Maple Trees! **CRIMSON KING**

(Patent No. 735.) Undoubtedly the very best of all red or deep purple foliaged Maples. In the spring Crimson King bursts forth with this beautiful foliage, and the brilliant color is maintained in the leaves until autumn; it glistens in the sun. Truly the King of all Maples. Perfectly hardy, well shaped tree. **Price: 5 to 6 ft., \$6.00 each.**

DOGWOOD

WHITE FLOWERING DOGWOOD. In early May this small native tree is a cloud of white flowers, and in the autumn the upper sides of the leaves turn a brilliant crimson. **Price: 3 to 4 ft., \$3.00 each.**

RED FLOWERING DOGWOOD. A profusion of pink and red flowers in May. Its foliage is unusually brilliant in fall. **Price: 2 to 3 ft., \$4.00 each.**

The Best Flowering, Ornamental and Shade Trees

HOPA FLOWERING CRAB. A handsome ornamental tree. Masses of bright red flower clusters are produced in early spring, followed by red fruits in autumn. Price: 5 to 6 ft., \$2.40 each.

EUROPEAN MOUNTAIN ASH.

A very attractive, small, hardy tree which bears clusters of scarlet berries from July to winter. Price: 6 to 8 ft., \$5.00 each.

WISCONSIN WEEPING WILLOW.

The famous Weeping Willow whose long, pendulous branches droop to the ground with matchless grace. Creates exquisite effects on the margin of streams or lakes. An excellent quick growing tree with many uses. Price: 6 to 8 ft., \$3.25 each.

LOMBARDY POPLAR.

A tall spirelike tree. Effective for screens and vertical accents. Price: 6 to 8 ft., \$1.60 each.

SCHWEDLER MAPLE.

Similar to the Norway Maple in form and leaf except the leaves are red in spring and early summer, and turn to purple in late summer and fall. Price: 6 to 8 ft., \$5.50 each.

DOUBLE FLOWERING PEACH. A striking, colorful tree for the spring garden, bursting into blossom 2 weeks ahead of Dogwoods. Double, long lasting. Rose-like flowers cover the twigs, remaining on for 10 days or more. Your choice of colors: red, white and pink. Price: 4 to 5 ft., \$2.00 each.

BACCATA FLOWERING CRAB. (White Flowering).

Fragrant, white flowers are borne profusely in early spring, followed by cherry-red fruits in autumn. The tree is somewhat pyramidal or cone-shaped, tapering to the top from a broad base. Price: 4 to 5 ft., \$2.00 each.

CHINESE ELM. A very rapid growing tree of dense pyramidal form. Slender, grayish branches, and small, fresh green leaves. Price: 6 to 8 ft., \$3.25 each.

CUT-LEAF WEEPING BIRCH.

Distinguished for its white bark, light green leaves which are finely cut, and its long drooping branches. Price: 6 to 8 ft., \$5.50 each.

PAUL'S DOUBLE SCARLET THORN.

Masses of double, showy, scarlet-crimson flowers on irregular, picturesque branches. Yellow-green bark is in pleasing contrast with nearby plants. Showy in fruit as well as bloom. Maturity height 20 ft. Price: 5 to 6 ft., \$5.00 each.

NORWAY MAPLE. Especially suited for street planting and on the grounds of small homes. Symmetrical, dense, round-headed tree. As it makes only a medium size tree, can be used where space does not permit larger growing types. Price: 6 to 8 ft., \$4.50 each; 8 to 10 ft., \$5.50 each.

GOLDEN CHAIN TREE. Shrub-like tree with long hanging clusters of yellow flowers in May. The picture accurately portrays the unusual beauty of this small ornamental tree. Excellent for planting in areas where space is limited. Price: 5 to 6 ft., \$5.00 each.

SILVER MAPLE. Especially popular because of being a fast grower. Light green foliage, silvery underneath. Excellent for broad streets and large home grounds and useful in public parks. Price: 6 to 8 ft., \$3.25 each; 8 to 10 ft., \$4.25 each.

Gladiolus

Best Long-Stemmed Varieties

BEACON. Salmon-red with large cream blotches.

GOLD DUST. Deep yellow, penciled rose.

LAVENDER RUFFLES. Pinkish lavender with white throat.

PICARDY. Clear flesh-pink, shading to soft shrimp at edges of petals.

PURPLE SUPREME. Tall bright purple.

SNOW PRINCESS. Pure white, excellent for forcing.

Price: Large blooming size bulbs, first size.

6 for 70c; 12 for \$1.30; 25 for \$2.50; 50 for \$4.75; 100 for \$8.50.

(Not less than 6 bulbs sold of a variety.)

GLADIOLUS

There is no other summer flowering bulb enjoying greater popularity than Gladiolus. They are not only showy in the garden, but when cut with the first flower open will last for ten days in the house.

COLLECTION OFFER

3 bulbs each of Beacon, Gold Dust, Lavender Ruffles, Picardy, Purple Supreme and Snow Princess, described above, 18 first size bulbs, not labeled, for \$1.85.

6 bulbs each of above varieties, not labeled, 36 for \$3.50.

LARGE FLOWERING Cannas

Spring Planting Only

Canna Prices: Heavy Tubers, 3 for 60c; 12 for \$2.10; 25 for \$3.75.

CITY OF PORTLAND. A glowing pink; foliage green.

PRESIDENT. Rich glowing scarlet; green foliage.

RICHARD WALLACE. Large, showy, pure canary-yellow flowers; green foliage.

KING HUMBERT. Massive trusses of coppery scarlet flowers; bronze foliage.

Best-by-Test

**BUNTINGS'
STRAWBERRY PLANTS ARE
GROWN IN FERTILE CHEMICALLY
TREATED SOIL. THEY ARE

INSECTS**

Temple

Fairfax

TEMPLE

An exceptionally vigorous variety, making a dense matted bed of unusually tall plants. Quite productive, and nearly as early as Blakemore. Berries are large, blunt-conic, smooth, uniform and have large attractive caps. Good quality fruit; a choice of commercial cold packers of Strawberries. Introduced because of its resistance to disease. **Price: 25 for \$1.30; 50 for \$2.15; 100 for \$3.40; 250 for \$6.80; 500 for \$10.65; 1000 for \$17.00; 5000 for \$75.00.**

ROBINSON

Ripens just after Premier, at a time when berries bring a good price. Berries are large, brilliant red, uniform in size. Vigorous grower and a heavy yielder. **Price: 25 for \$1.20; 50 for \$2.00; 100 for \$3.20; 250 for \$6.40; 500 for \$10.00; 1000 for \$16.00; 5000 for \$70.00.**

FAIRFAX

Early. The quality berry. A favorite in quality, flavor and productiveness. Originated and introduced with Dorsett, now widely known and planted. The berries are exceptionally large all through the fruiting season, and very firm. Plant Fairfax for its superb flavor, large size and universal demand. **Price: 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$85.00.**

Robinson

AMBROSIA LATE

Considered by many to be the largest, latest and best Strawberry introduced. The berries are very large, semi-pointed, rich, sparkling bright red, of delicious flavor. Growth is very rigid and vigorous. Berries develop in the shade of the leaves and off the ground, which assures clean fruit. **Price: 25 for \$1.30; 50 for \$2.15; 100 for \$3.40; 250 for \$6.80; 500 for \$10.65; 1000 for \$17.00; 5000 for \$75.00.**

Ambrosia Late

BUNTINGS'
the
Seal of
Excellence

Buntings' of Selbyville, Delaware; Leaders in Golden Rooted Strawberry Plants

Our Long Golden Rooted Plants Lead the Parade in Quality, Size & Productivity - Always Your "Best Bet"

Superfection

This exceptionally large, round, red to the center berry, has a sweet pleasing mellow flavor and is delicious to eat fresh, canned, preserved in jams and jellies, as well as fresh frozen. Bears an abundance of large berries throughout the late summer and fall season. We believe it is the best everbearer ever introduced, and highly recommend you plant them.

Price: 25 for \$2.25; 50 for \$3.75; 100 for \$6.00; 250 for \$12.00; 500 for \$18.75; 1000 for \$30.00; 5000 for \$130.00.

SPARKLE

A vigorous grower and very productive. Berries are somewhat round in shape, of excellent quality and splendid for freezing. Our Sparkle is a strain grown from U. S. D. A. Virus-Free plants. Price: 25 for \$1.30; 50 for \$2.20; 100 for \$3.50; 250 for \$6.85; 500 for \$10.95; 1000 for \$17.50; 5000 for \$77.50.

Plants referred to as "virus-free" in this catalog have been field-grown by us from virus-free foundation stock furnished by U. S. D. A., Beltsville, Md. Our field-grown stock has been dusted with parathion to control aphids which transmit the virus disease. It has also been grown at considerable distance from any other Strawberry plants. Since virus does not produce clear-cut symptoms in most Strawberry varieties but simply weakens and de-vitalize the plants, no guarantee can be made that these plants are 100% free of virus. Because of the measures that we have used to protect these plants from virus infection, we believe them to be substantially virus-free.

Buntings' Golden Rooted Plants

FAIRLAND

Ripens early midseason; produces large, bright red, firm berries which carry to market in excellent condition and demand top prices. Recently introduced by the U. S. D. A., Beltsville, Md. A vigorous grower and known to be free of leaf spot and resistant to red stele root disease. Price: 25 for \$1.30; 50 for \$2.20; 100 for \$3.50; 250 for \$6.85; 500 for \$10.95; 1000 for \$17.50; 5000 for \$77.50.

CATSKILL

An outstanding midseason variety becoming more popular every year. Produces large, strong plants, makes an ideal fruiting bed. The berries are large in size, bright red color. Equals Premier in flavor and carries a bright green cap. Firm enough to arrive on the market in excellent condition. It is considered almost frost-proof, and can be depended upon to produce annually bumper crops of fine fruit. Our Catskill is a strain grown from U. S. D. A. virus-free plants. Price: 25 for \$1.30; 50 for \$2.20; 100 for \$3.50; 250 for \$6.85; 500 for \$10.95; 1000 for \$17.50; 5000 for \$77.50.

STREAM-LINER

Generally conceded to be one of the best everbearing Strawberries offered today. Has pleasing flavor, rich red color throughout; excellent for eating fresh, canning or freezing. Price: 25 for \$2.25; 50 for \$3.75; 100 for \$6.00; 250 for \$12.00; 500 for \$18.75; 1000 for \$30.00; 5000 for \$130.00.

Price: 25 for \$2.25; 50 for \$3.75; 100 for \$6.00; 250 for \$12.00; 500 for \$18.75; 1000 for \$30.00; 5000 for \$130.00.

FAIRPEAKE

A Leading Late Variety

A cross between Chesapeake and Fairfax, this Strawberry retains the delicious flavor of Fairfax and is more productive than Chesapeake. A vigorous grower, this plant produces a quality berry of good size. The flesh is firm, juicy, and red to the center. Excellent for either the home gardener or commercial grower. Price: 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$35.00.

PREMIER

This very popular early berry has stood the tests of many years. Fruit large and holds its size well throughout the ripening season. Foliage smooth, bright and clean. A good plant maker. One of the most extensively planted early varieties of Strawberries at this time. There are but very few varieties that have equalled Premier's production record. In flavor and quality it ranks with the best. Recommended for home use, local sales or commercial markets. Our Premier is a strain grown from U. S. D. A. virus-free plants. Price: 25 for \$1.30; 50 for \$2.15; 100 for \$3.40; 250 for \$6.80; 500 for \$10.65; 1000 for \$17.00; 5000 for \$75.00.

Grown in Chemically Treated Soil for Better Plants — More Production — Finer Berries

The Great Mastodon

Has been a leader among the everbearing varieties for many years. makes strong, robust plants. The berries are large in size and have good flavor. Plant in good fertile soil and you will be delighted with this long-time favorite. Its spring crop compares favorably with that of other June-bearing sorts. **Price:** 25 for \$2.40; 50 for \$4.00; 100 for \$6.40; 250 for \$12.80; 500 for \$20.00; 1000 for \$32.00; 5000 for \$140.00.

ARMORE

Introduced by the Missouri Experiment Station, this variety has proved more productive than 60 others in actual tests. Berries are of good size, a beautiful red and of excellent flavor; a firm, good keeping, good shipping variety. **Price:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$85.00.

BIG JOE

Ripens about three days before Fairpeake. Fruit is firm and of large size, good color and of delicious flavor; no green tips. Plants are strong growers and thrive on any soil that will produce Strawberries. **Price:** 25 for \$1.30; 50 for \$2.15; 100 for \$3.40; 250 for \$6.80; 500 for \$10.65; 1000 for \$17.00; 5000 for \$75.00.

EMPIRE

A new introduction of the New York State Experiment Station as a real challenger of Premier. Berries average extra large in size, very attractive and of excellent quality. Fruit is firm and holds its appearance well, making an excellent shipping berry. Very vigorous grower; withstands adverse growing conditions. **Price:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$85.00.

MASSEY

Very firm, extremely large, bright red berries with a nice green cap. Makes a good fruiting bed. Plants are quite vigorous with good fruiting stems, holding the berries up off the ground. **Price:** 25 for \$1.30; 50 for \$2.20; 100 for \$3.50; 250 for \$6.85; 500 for \$10.95; 1000 for \$17.50; 5000 for \$77.50.

MIDLAND

Beautiful, very large berries of deep, glossy red color. Very good dessert quality, mildly sub-acid. These qualities make Midland a most attractive frozen product with that fresh-off-the-vine goodness. **Price:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$85.00.

Gem

One of the leading everbearing varieties. Bright, attractive berries of good size, uniform in shape and pleasing flavor. **Price:** 25 for \$2.10; 50 for \$3.50; 100 for \$5.60; 250 for \$11.20; 500 for \$17.50; 1000 for \$28.00; 5000 for \$120.00.

Other Popular STRAWBERRIES

POCAHONTAS

New. Just named and introduced by the U. S. D. A., Beltsville, Md., formerly tested as US-3745. Berries average large in size throughout the picking season, are a vivid red, have a tough skin and are quite firm. The ripening season is about a week later than Blake-more. **Price:** 25 for \$1.50; 50 for \$2.50; 100 for \$4.00; 250 for \$8.00; 500 for \$12.50; 1000 for \$20.00; 5000 for \$90.00.

RED CROP

Excellent quality, firm large berries. Plants make a vigorous growth and have the stamina to withstand adverse conditions. Produces a good yield of excellent quality berries. **Price:** 25 for \$1.20; 50 for \$2.00; 100 for \$3.20; 250 for \$6.40; 500 for \$10.00; 1000 for \$16.00; 5000 for \$70.00.

SENATOR DUNLAP

Fruit is of good size and a beautiful bright red color, glossy and firm. Makes a good fruiting bed under adverse weather conditions. **Price:** 25 for \$1.15; 50 for \$1.90; 100 for \$3.00; 250 for \$6.00; 500 for \$9.40; 1000 for \$15.00; 5000 for \$65.00.

TENNESSEE BEAUTY

Very productive, midseason variety. Bright shiny red berries with good shipping qualities. Fast becoming one of the leaders. **Price:** 25 for \$1.15; 50 for \$1.90; 100 for \$3.00; 250 for \$6.00; 500 for \$9.40; 1000 for \$15.00; 5000 for \$65.00.

TENNESSEE SHIPPER

Exceptionally firm, attractive berries; ideal for freezing, canning and preserving. **Price:** 25 for \$1.15; 50 for \$1.90; 100 for \$3.00; 250 for \$6.00; 500 for \$9.40; 1000 for \$15.00; 5000 for \$65.00.

VERMILION

Introduced by the University of Illinois. Very productive of good sized berries; fine quality. **Price:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$85.00.

For years these 2 Everbearers
have been in great demand.
Size of berry and bearing
quality are excellent.

Blakemore

The Ideal Shipping Berry

A healthy, vigorous growing variety, that yields big crop of berries. Will stand two or three days without over-ripening. Foliage is healthy and stands up well during drought. Fruit is firm, of good color and unexcelled as a long-distance shipping berry. Ranks high in productiveness. To get all that you are entitled to from Blakemore, do not allow them to mat too thickly in the rows during the growing season. Our Blakemore is a strain grown from U. S. D. A. virus-free plants.

Price: 25 for \$1.15; 50 for \$1.90; 100 for \$3.00; 250 for \$6.00; 500 for \$9.40; 1000 for \$15.00; 5000 for \$65.00.

Dorsett

Early. Its bright red color and rich, delicious flavor always bring top market prices. Ripening early with Premier and Blakemore, this variety rapidly came to the top in favor, and is well known and widely planted. Price: 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$85.00.

Growing Strawberries Profitably Setting Plants

Clip the roots if they can't be planted without doubling. The plant should be set with the crown about even with the soil after it has been thoroughly firmed around the plant.

Type of Soil

Select a plot springy in nature but well drained and free of vegetation. Moisture is essential. The land which you contemplate setting to Strawberries should be kept as free from vegetation as possible during the previous year. If the land has been lying idle, plow late in summer before the weeds and grass develop seed to maturity. Heavy crops of Cow Peas, Soy Beans, etc., if plowed under in late summer while green increase the humus and fertility of the soil, making it loose and porous; therefore, more retentive of moisture.

Soil Preparation and Fertilization

Prepare soil same as for truck or garden crops. Lay out rows, usually 3½ to 4 feet apart; set plants about 15 to 18 inches apart in the rows. Do not use commercial fertilizer at the roots. If soil is fertile we do not recommend using any type of fertilizer when planting. After the plants have been set in the row, a light application of fertilizer may be applied around the plant and worked into the soil with a hoe. Do not allow the fertilizer to fall on the leaves of the plant. During the growing season additional applications of fertilizer may be applied if the soil is not reasonably fertile.

The following spring after plants have been set, during the months of February or March, apply a good grade of commercial fertilizer carrying an analysis of 5 per cent ammonia, 6 to 8 per cent phosphoric acid and 10 per cent potash, broadcast on the row of the plants, at the rate of 15 to 20 pounds per hundred yards of row space.

Cultivation

Keep Rows Free of Vegetation.

As soon as the plants are set in the spring, cultivation should begin, and should be continued whenever weeds start or a crust forms. Frequent shallow cultivation will make it unnecessary to do much hand hoeing or hand weeding.

Mulching

After the first freeze during fall months, wheat or rye straw may be applied over the rows of plants for winter protection. Early in the spring, before growth starts, it should be removed from the bed of plants and placed between the rows to retain moisture and keep berries clean.

Planting Time

Northern States—April and May.
Central States—March and April.
Southern States—February and March.

A New Method of Growing Everbearing Strawberries

If you raise fruit for home consumption or commercial markets, how would you like to produce 100 quarts of delicious Strawberries from a plot of ground 40 feet long and 15 feet wide or 7000 quarts per acre. How would you like this high yield the very first growing season and a similar crop the second year? Such production is possible if everbearing Strawberries are raised by the spaced-plant, peat-moss-mulch system. On favorable locations and with some of the newer varieties such as Superfection, even higher yields can be expected.

Renewed interest in growing Everbearing Strawberries has been brought about by this revolutionary system, whereby plants are set in rows 1 foot apart, plants 1 foot apart in the row, with 4 rows forming a bed. A 2-foot space is left between the beds to provide a path along which to work when picking the fruit or removing weeds. A 1-inch layer of peat moss mulch is applied throughout the plot, and **all runners should be removed from the plants as fast as they develop through the entire system. All blossoms are kept removed from plants until July 1 the first season.** Plant in fertile soil.

Complete planting and cultural data will be supplied upon request. If possible, plant in soil that has received an application of potash during the past few months or year. A balanced plant food for Strawberries should carry an analysis of 5% ammonia, 6% to 8% phosphoric acid and 10% to 12% potash, applied on a basis of 15 to 20 pounds per 100 yards of bed space. Apply after plants are set.

At a cost of only \$18.75 for 500 plants you can have this "back-yard" plot that should produce 100 quarts of berries the first season, starting about 90 days after setting the plants. It will require 35,000 plants for an acre. Commercial growers will quickly capitalize on the idea because the berries ripen uniformly, meet with ready sale, and give a much greater yield, resulting in high profits.

Diagram below shows method of planting a "back-yard" Everbearing Strawberry patch that will produce 100 quarts of delicious berries the first year.

Blueberries

There is a big market for these delicious Blueberries; they make money from any type of acid soil. Grow in big clusters—5000 to 8000 pints per acre—easy to harvest, thornless. Plants last a lifetime, give bigger yields every year.

If your soil is sweet, use peat moss or partially rotted vegetable matter around the plants to create acid. The period of ripening covers several weeks, therefore, harvesting can be done at leisure. Write us and ask for free booklet on Blueberry culture.

Your choice of June (early), Rancocas (midseason) and Jersey Blue. Use two or more varieties to cross-pollinate for best results.

		BLUEBERRY PRICES (Per Plant):					100 or

This illustration shows only a small section of 2 plants grown by the spaced-row system. An abundance of berries like those shown above are produced continuously from July 15th to November 1st. Each plant will attain about 12 inches to 15 inches spread.

Delaware Grown Grape Vines

Strong - Rooted 2-Year Vines - Take Hold Quickly

AGAWAM

Deep red or maroon. Ripens early. Fruit large and meaty, borne in extra large, loose shouldered bunches. Vines strong growers, very healthy. Ripens with Concord. Has a delightful aromatic flavor.

CACO, the Best Red

This is a variety considered the best and hardiest amber-red ever produced, the bunches being very large and the berries comparable with the new Fredonia. In quality Caco ranks among the best of the native Grapes, approaching in flavor European Muscat rather than the foxiness of native Grapes.

CATAWBA

Keeps better than any Grape in cultivation. Ripens late and can be kept in good condition a long time. Berries large, round, when fully ripe dark copper colored. Good market variety.

FREDONIA

Black, with heavy bloom, cluster about medium, berry large, very early, good quality, comparatively new and very promising.

MOORE'S DIAMOND

White. Ripens early September. Berries medium size, and desirable for Grape juice. Good quality.

NIAGARA

A Quality White Grape

Was first fruited in 1868. Concord is one of its parents. It received practically all of its characteristics from this parent. Niagara, therefore, is Queen of the Grape family. Where well grown, its bunch, berry and coloring cannot be surpassed in beauty. It has been and still is the standard white table Grape of Eastern United States. It does not easily crack. Consequently it makes a very good appearance on the market, inducing larger sales. The fruit of Niagara is at its best when left on the vines until well ripened. **Niagara is a worthy Queen of King Concord.**

PORTLAND

White, very early, clusters medium large, berry good quality. Very hardy, vigorous grower; productive. New and very promising.

WORDEN

Vine moderate grower, very hardy and productive. Grapes very large, thin skin, very fine flavor, blue-black in color and fine for home use or nearby market. One of the earliest, ripening about 10 days before Concord. Fruits heavily on young vines.

The Great CONCORD

The Leading All Purpose Grape

Discovered about 100 years ago. Apparently a seedling of a wild Grape. It early established the record of being the "Grape for the millions"—the KING of the Grape family. It is still the best all-around Grape. Its adaptability to varying climatic conditions alone makes it popular, to say nothing of what can be made of its fruit, such as sweet Grape juice, jellies, jams, marmalade, etc.

Concord is a very vigorous grower, hardy and very productive. Ripens midseason and known as the best money-making commercial variety; also for home use, it is unsurpassed by any other variety.

Buntings' Remarkable Raspberries

Cumberland—
the best bet
in blacks.

Indian Summer

You can make money with Raspberries because their delicate flavor won't keep, and the berries can't be shipped long distances. This gives you all the local market, with little competition from outside—and a chance to sell on a quality basis alone.

Newburgh

(Red.) Midseason. This variety was introduced by the New York Fruit Testing Association. Plant vigorous grower, branching more than most red varieties. Hardy, very productive. Fruit very large, firm. Does not crumble. Precedes Latham a few days in ripening. An excellent shipper and keeper.

PRICE

(All varieties except Cumberland and September Everbearing)
1-yr., No. 1, 5 for \$1.70; 10 for \$2.55; 25 for \$4.70; 100 for \$14.00; 250 for \$30.30; 500 for \$48.85.

CUMBERLAND

The Black Raspberry

In blacks—your best bet. Produces large, jet-black fruit, firm and of excellent quality; sweet and mild, ripening in midseason and continuing for two weeks. Extensively planted for commercial purposes and for table use. Fruit is large, plump and juicy, with a true "Blackcap flavor" all its own. Because of its extremely firm texture, Cumberland is an ideal shipper. No black Raspberry has ever been grown as extensively as Cumberland, nor attained its great popularity in all Raspberry producing sections of the country.

PRICE: 1-yr., No. 1, 5 for \$1.40; 10 for \$2.10; 25 for \$3.90; 100 for \$11.55; 250 for \$24.95; 500 for \$40.25.

INDIAN SUMMER

Giant Red Everbearer

The best everbearing red Raspberry. Earliest to ripen; bears a full crop in June and an immense crop in the fall. A sensation because of its size, flavor and unusual beauty. Wonderful keeping qualities. Berries are glossy red, conical in shape and of extra large size. The greatest all-purpose Raspberry. The fall crops, when Raspberries are scarce and therefore highly prized, are heavier than the earlier ones.

TAYLOR

This red Raspberry is considered to be the best of them all for New York and the northern states. Plants are vigorous, hardy, productive, tall growing and increase rapidly. Sturdy canes hold the berries well off the ground. The berries, bright attractive red, are thick-fleshed, firm and of excellent quality.

are Rapid Vigorous Growers

SUNRISE

The earliest red Raspberry of them all. The bright red, round berries are juicy, have a delicious flavor and aroma, fine, firm texture. It combines the necessary characteristics of a successful berry; earliness and high quality of fruit, also hardiness and resistance to disease. Excellent for home use.

Plant Buntings' Well Developed Raspberry Bushes That Are Noted for Their Splendid Root System.

SEPTEMBER EVERBEARING

A new everbearing red Raspberry, a cross between Marcy and Ranere, introduced by the New York State Fruit Testing Association. Berries are of good size, high quality, round, bright red, show no crumbling tendencies and cling securely to the bushes. Its spring crop is about five days earlier than Newburgh, and the fall crop matures before frost. Plants are vigorous and increases rapidly. Ideal for either home or commercial gardens.

Price: 1-yr., No. 1, 10 for \$3.85; 25 for \$7.50; 100 for \$22.50.

LATHAM

The productiveness and resistance to disease of this popular midseason to late red Raspberry has attracted the attention of growers everywhere, and, in the Northwest, the great berry growing section of America, growers are enthusiastically planting it heavily each year. Extremely hardy, cold weather seems to have no effect on its outstanding bearing ability. Plants are vigorous growers, highly resistant to insects, mosaic free and start ripening in midseason and continue an unbelievably long time. Berries are extra large, beautifully colored rich dark red, and good flavored.

How to Grow Raspberries Successfully

CULTURAL DIRECTIONS—RED RASPBERRIES

Two methods of culture are commonly used, the hill system and the solid row system. Under the first system plants are usually set five feet apart each way while under the second system they are set three feet apart in rows seven feet apart. Place plants in hole or furrow, spread roots, fill to ground level, and press soil firmly. After planting, cut all canes back to 2 or 3 inches above the ground level. The following spring, before growth starts, prune canes back to a length of about three feet. After fruiting season, cut out all fruiting canes and burn them to destroy any disease or insects. Future years' growth should be confined to six or eight strong canes to each plant, following same procedure year after year.

CULTURAL DIRECTIONS—BLACK RASPBERRIES

Two methods of culture are commonly used, the hill system and the solid row system. Under the first system plants are usually set six feet apart each way while under the second system they are set four feet apart in rows seven feet apart. Place plants in hole or furrow, spread roots, fill to ground level, and press soil firmly. After planting cut all canes back to two or three inches above the ground level. When new growth starts and has attained a height of 18 to 24 inches, it is best to pinch the tips of the canes which causes each cane to throw off branches and grow upright. All lateral branches should be cut back severely, leaving from 6 to 8 inches of cane. Weak spindling canes are cut out entirely. The following spring, before growth starts, prune canes back to a length of about 3 feet. Cultivate Raspberries shallow during the entire season but do not continue beyond picking season, as late growth will not mature sufficiently to withstand the winter.

A booklet containing complete planting and cultural directions for all trees and plants offered in this catalog will be included free with each order upon request.

Latham

A Fruitful - Decorative Ornamental Tree for the Garden

New **Red-Leaved PEACH**

- **Delicious Peaches**
- **Red Foliage**
- **Colorful Pink Blossom**

A dual-purpose tree—beautiful as an ornamental, prized for its fruit.

Foliage is bright red early in the spring, gradually dulling to a deep maroon towards fall. Its deep pinkish red blossoms in early spring create an exquisite effect, adding a touch of color to your landscape when it is most appreciated.

Our new Red-Leaf Peach produces a full crop of round, inch-and-a-half diameter Peaches; excellent for pickling. Fruit has an all-over-red coloring; flesh is white with delicious flavor. **Price: 3 to 4 ft., \$1.65 each.**

DWARF FRUIT TREES

**Take Little Space
to Produce Big Delicious Fruit**

DWARF APPLES

These little trees can be planted 15 to 18 feet apart, and are only 12 to 15 feet high at maturity. Most varieties start producing fruit first or second year after planting, and fruit is as large or larger than that from standard trees. Plant two or more varieties for pollination.

Varieties: Grimes Golden, McIntosh, Red Rome Beauty, Red Stayman.

Price: 2-yr., 3-4 ft., \$3.50 each; 3 for \$9.75.

DWARF PEARS

These attractive small trees require very little space, produce big delicious fruit, and often bear the year after planting. Plant two varieties for cross-pollination.

Varieties available: Bartlett, Clapps' Favorite.

Price:
2-yr., 3-4 ft., \$3.50 each;
3 for \$9.75.

EBONY KING BLACKBERRIES

A New Upright Blackberry

Here's good news for Blackberry lovers. This grand new variety will produce an abundance of fruit. Most of the old Blackberry varieties have become sterile; that is, they will produce blooms which fail to develop into fruit. The new EBONY KING has been tested for several years, and is a sure-bearing variety. It is very hardy, having withstood temperatures of 22 degrees below zero. The berries are very sweet, and have the wonderful delicious Blackberry flavor. Bears annually and early in the season before hot weather sets in. Self-pollenizing. Supply of this variety is still limited, so order early. **Price: Heavy 1-yr., No. 1 plants, 10 for \$3.85; 25 for \$7.50; 100 for \$22.50.**

FIELD CULTURE—BLACKBERRIES AND DEWBERRIES—

Plant in rows 7 feet apart with plants set 4 feet apart in the rows (1,555 plants to set an acre at given distances).

Plow a furrow about 5 to 6 inches deep or dig holes 6 inches deep and 6 inches square. Spread roots, fill hole with soil; firm well. Cut stock after planting approximately 2 inches above ground level. Let them grow and the following spring cut the new growth back one-third, leaving two-thirds of the season's growth for production of berries. After fruiting cut all fruiting canes out and burn them. Cultivate occasionally and follow same procedure each year, allowing about 6 to 10 canes on each plant to stand for fruiting each season.

*The Best in the
Blackberry Field*

A booklet containing complete planting and cultural directions for all trees and plants offered in this catalog will be included free with each order upon request.

Buntings'
Nurseries
Selbyville, Del.

Boysenberry

10 Plants for \$2.50

A cross between the California Loganberry, Raspberry and Blackberry. Just think of a berry that has a little of each of these fruits all in one giant, nearly seedless, beautiful wine colored berry, with a flavor that you will never forget.

Its size is unbelievable—two inches long is not unusual, three inches long not rare. Fifty of these plump, inch-thick marvels will fill a quart basket; a sight so remarkable people can't resist buying them! They are rare—they are unusual. The demand is so tremendous retailers can't get enough of them.

Buntings' hardy No. 1, strong-rooted plants bear big crops the second year. Do not miss planting some Boysenberries in your garden this year. **Prices: 3 for \$1.10; 6 for \$2.00; 10 for \$2.50; 25 for \$4.65; 100 for \$14.05; 250 for \$30.40; 500 for \$48.85; 1000 for \$85.00.**

Dewberries

LUCRETIA. Extremely productive. The berries are extra large, black in color; flavor rich, sweet and delicious. Dewberries are of the Blackberry family, but produced on a trailing vine instead of an upright bush, and bear earlier in the summer. Lucretia berries are firm and of excellent quality. **Prices: No. 1 plants, 10 for \$1.85; 25 for \$3.35; 50 for \$5.75; 100 for \$9.90.**

berry

RED PIE CHERRIES

Large MONTMORENCY

The Universal Canning and Pie Cherry

These select record-breaking Montmorency trees develop into uniform, shapely specimens bearing heavy crops of very large fruit.

Fruit large, firm, ships perfectly. Bears very young, produces tremendous money-making crops and is successful everywhere.

Fruit Growers Consider This the Finest Sour Cherry In Cultivation

Because of its distinctive acid flavor, delightful in pies and preserves.

ENGLISH MORELLO. Tree small, round-headed, with distinctly drooping branches. Fruit three-fourths of an inch in diameter, color dark red. Flavor tart, good quality; excellent for preserving and pies. Freestone. Ripens in July.

EARLY RICHMOND. A leading sour Cherry, used extensively by canners, excellent for pies and preserves. Tree medium size, dense, upright-spreading. Fruit three-fourths inch in diameter, color light red, fruit thin-skinned, freestone. Ripens in June.

**Nationally Known
PEACH TREES**

O'Boy!

THE PERFECT PEACH

If you are looking for the largest, richest, most beautiful Peach in the world, here it is! Everyone who sees it exclaims in wonder, "O'Boy, what a perfect Peach." So it was named O'Boy. It is round and uniformly shaped. Skin glowing orange, blushed all over with rich, dark red, even before ripe. Flesh rich orange bright red around the pit. The red color is retained in the canned fruit and juice.

Firm of flesh and skin. You'll want to can them exclusively for your fancy table use. Perfectly freestone and self-pollenizing. Bear heavily when three years old. Don't fail to plant O'Boy this spring.

Buntings' Healthy, Well-Grown Vigorous Trees are Worth More

Quality in Peach trees is not a mere matter of the size of the trees at the time of purchase. It includes the horticultural skill, knowledge, care and personal integrity actually employed from the securing of the Peach seed to the delivery of the stock.

J. H. Hale

**A QUALITY PEACH
for Home and Orchard Grower**

Freestone. The skin is deep crimson, smooth, tight and almost without fuzz. Fruit is very large, round, firm, golden yellow, sweet and melting; quality excellent. Ripens just before Elberta. A very good one!

ELBERTA

A CROWNING SUCCESS WITH THE ORCHARDIST AND HOME GARDENER

Everyone is familiar with the old reliable Elberta. Its attractive appearance, large size, uniformly shaped fruits are well known throughout the world. Universally planted—Elberta leads all other Peaches in number of trees producing fruit. Most popular Peach on the market. Ripens midseason, roundish with a pointed tip, thick skin; flesh yellow stained pink near the pit; juicy, firm but tender, good quality freestone.

SULLIVAN'S EARLY ELBERTA. An early ripening bud sport of Elberta. Size, color and shipping qualities identical with Elberta, but ripens about ten days earlier. A splendid all-purpose Peach.

BRACKETT. Large, late, deep yellow Peach, very highly flavored; freestone. Excellent for home use, and extensively planted in commercial orchards.

Elberta

GOLDENEAST

(N. J. 88) Early Midseason

Ripens about fifteen days earlier than Elberta. A large, oval, firm, highly colored, yellow fleshed freestone Peach, rapidly gaining popularity with commercial growers. Originated at the New Jersey Experimental Station. An excellent variety for shipping or for home use.

Golden Jubilee

GOLDEN JUBILEE

The "Beau-Brummel" of Peaches

Unusually hardy, resists excessive cold; a sure cropper after severe winters and heavy frosts. Medium to large in size, ripens almost four weeks ahead of Elberta, and considered to be one of the best early ripening varieties. Fine flavor, yellow freestone, attractive color and fine texture. Profitable for market, excellent for home use.

RIPENING ORDER OF PEACHES

Buntings' Fine Peaches

BELLE OF GEORGIA

A POPULAR WHITE PEACH

Large, attractive, white. Peach with red cheek. Delicious flavor; one of the best market varieties. Very hardy, easy to grow. Home canners prefer Belle, and for some time it has been recognized as the best all-around white Peach on the market.

Belle ripens midseason; large size, freestone. The best white Peach of its season.

RIO OSO GEM

An excellent late yellow freestone Peach, ripening about ten days after Elberta. Fruit large in size with brilliant red color. The flesh is firm and fine textured, with excellent flavor. Because of its firmness of flesh, it is particularly recommended for freezing, canning, etc., also a splendid sort for distant commercial markets. We believe it is the best all-purpose late yellow Peach on the market today.

See page 32 for prices.

Belle
of Georgia

✓ **CRAWFORD'S EARLY.** Freestone. Large, oblong, yellow, with deep red cheek; flesh yellow, juicy and rich, excellent flavor. August 1st to 15th.

✓ **CRAWFORD'S LATE.** Ripens after Elberta. Freestone. High quality and very large; flesh deep yellow; skin yellow, with broad, dark red cheek.

✓ **ROCHESTER.** Has the habits and characteristics of the Crawford, but fully two weeks earlier. Yellow; freestone; good size; very sweet, fine flavor. Ripens middle of July.

✓ **SHIPPERS LATE RED.** Follows Elberta in ripening. Skin yellow with attractive red coloring. Flesh yellow, juicy, sweet, pleasing flavor. Bears young; good late commercial variety. Freestone.

HALE-HAVEN

A Premium Peach for Every Commercial Orchard. Ripens 2 Weeks Before Elberta.

Steadily gaining favor, because of its size, color, good shipping qualities and hardness in bud.

This marvelous new Peach, an introduction of the Michigan State Experiment Station, is a cross between the famous South Haven and J. H. Hale. It's an aristocrat of the first order.

Extremely high color before ripening; withstands cold temperatures; very hardy; heavy bearer. A perfect freestone; yellow fleshed.

✓ **CARMAN.** A very hardy, semi-freestone Peach, ripening about the middle of July; skin pale yellow with blush on sunny side; flesh white, tender, sweet and melting. Ships well. Best early market Peach.

Rio Oso Gem

Redhaven

WHITE HEATH CLING PEACH

Fruit extra large, creamy white, pink cheeked, and the flesh is white, tender, juicy and delicious. Ripens September 10th to 15th.

REDHAVEN

EXTRA EARLY, BRILLIANT COLOR, FINE FLAVOR AND GOOD SHIPPER. Perfect freestone, medium to large in size, flesh yellow, fine textured, sweet and of good quality. Smooth skin, almost fuzzless; brilliant red color, with creamy yellow background. Bears heavy crops. A profitable commercial variety, and excellent for home use where a good quality early yellow Peach is desired.

HARDY APRICOT TREES

They Grow Like Peaches

APRICOT PRICES (Per Tree)		10 or more Trees
3 to 4 ft.	\$1.80	\$1.50
4 to 5 ft.	2.00	1.75
5 to 6 ft.	2.35	1.95

EARLY GOLDEN. Pale orange, juicy and sweet. A hardy, prolific bearer, ripening early in July.

MOORPARK. Orange-yellow fruit with red cheeks.

HORSERADISH

MALINER KREN. Very hardy, and thrives best in cool, moist earth, but will thrive well on any soil that produces crops of any kind. Plants are vigorous, and roots grow to a large size. **Price:** 1-yr., No. 1 plants, 10 for \$1.50; 25 for \$3.00; 100 for \$10.00.

NECTARINES

NECTARINE PRICES (Per Tree)

	10 or more Trees	
	1 to 9 Trees	
4 to 5 ft.	\$2.00	\$1.75
5 to 6 ft.	2.35	1.95

HUNTER. Large, round, yellow freestone. The melting, juicy texture of the fruit, and its delicious flavor, furnishes one of the most delightful fruits for eating during the summer.

Quince

NUT TREES

Nut trees are valuable, useful and ornamental. No home should be without them. They are valuable as shade or ornamental trees, as well as for the nuts they produce.

PECAN. Strong grower. Very large, thin-shelled nuts, easily opened. **Price:** 3 to 4 ft., grafted, \$4.00 each.

ENGLISH WALNUT. A fine, lofty growing tree with handsome spreading head. Very hardy, will stand extreme cold. Produces abundantly. **Prices:** 3 to 4 ft., grafted trees, \$4.00 each.

Fine Edible CHINESE CHESTNUTS

Hardy, fast growing, early producing, blight resistant trees bear big, tasty Chestnuts the second or third year after planting. Chestnuts fully as good as native American and larger in size.

A BEAUTIFUL ORNAMENTAL TREE!

In a short time it becomes one of the most beautiful trees on your place and you'll look forward to each fall harvest of delicious nuts.

Price: 2 to 3 ft., strong trees, \$2.50 each.

Buntings'

APPLES

A Selection of 7 World Beaters

↓ SOLID RED ROME

A brilliant, solid red that produces over 50 per cent more extra fancy Apples for color grade than common Rome Beauty. A beautiful Apple, identical in quality, productiveness and other characteristics with the regular Rome Beauty, except for a greatly superior color.

↓ BALDWIN

For many years Baldwin has been a favorite with commercial orchardists for their northern markets. Highly regarded as an eating and cooking Apple, having a flavor all its own. A heavy yielder and an excellent shipper. Fruit is large, bright red, crisp, juicy and rich.

↓ GRIMES GOLDEN

Very large, skin golden yellow, flesh tender and crisp. A very good fall Apple. Grown in all sections of the country.

↓ LODI (Improved Yellow Transparent)

Originated by the New York State Experiment Station. After being tested commercially over quite a large area, it is now rapidly gaining popularity. A summer Apple ripening about the same time as regular Transparent; however, much larger and more firm than Transparent. Fruit good size, skin clear, white to pale yellow in color. Flavor very good. An excellent cooking Apple. Tree a very strong grower.

↓ YELLOW DELICIOUS

This alluring Apple with the strong appetite appeal never fails to capture the elusive nickel on the fruit stands. It is a national favorite, commanding highest prices on the market. A bright golden yellow, firm, crisp, juicy Apple. Tree bears when young, and yields heavily.

Solid Red
Rome

↓ DOUBLE RED STAYMAN WINESAP

Carries at least double the color of the original strain of Stayman Winesap, otherwise exactly the same growth, hardness, etc. We have discontinued propagating in our nurseries, also growing in our orchards, the regular variety of Stayman's Winesap, in view of the fact that we get the same quality in Double Red Stayman with double the color which sells the fruit for more money.

Double

Stayman
Winesap

Yellow
Delicious

↘ SOLID RED McINTOSH

A selected bright red sport of the reliable old McIntosh. Flesh white, tender, juicy, sub-acid. Tree hardy, vigorous and healthy. A leading commercial variety especially desirable for fancy trade.

↘ RED YORKING

(U. S. Plant Pat. No. 125)

A sport from its famous daddy, York Imperial. It has the same fine and dependable qualities except that its skin is thicker, it does not scald in storage, and ripens to a solid cherry-red color. Shows color five weeks earlier than regular York. An excellent shipping Apple. Plant these early coloring Red Yorkings and get into the market with a sure profit-making new variety that finds a ready sale.

↘ WILLIAMS EARLY RED

Among the earliest to ripen, and the largest of all early Apples. The trees come into bearing when quite young, producing freely and steadily. The Apple is large, with tender, crisp, white flesh, juicy and slightly tart. This big red Apple hits the market at a time when people are hungry for fresh fruit. Recommended for both home use and commercial markets.

↘ ALL RED DELICIOUS

This improved new Red Delicious colors a very rich red three to four days in advance of any other strain of Delicious Apples. It is not only a commercial Apple, but is every bit as well adapted to home gardens. A superior, large uniform Apple, rich in flavor, with a characteristic five-knob appearance that makes it attractive in every market.

DOUBLE RED JONATHAN

Insure your profits from Jonathan by planting this new sport that will give you bright red colored fruit about two weeks earlier. Fruit medium to large, brilliant red, juicy, fine grain, tender and very highly flavored. Bears young; produces heavy crops every year.

Double Red Jonathan

Solid Red McIntosh

5 in One Quintuplet APPLE TREE

FIVE Leading Varieties on ONE TREE

Here's the opportunity for those with limited space to have five mighty desirable varieties of Apples, all budded on one tree, for a little more than the cost of one tree. Requires only a 25-foot space when fully grown. Each tree is budded to the following varieties:

YELLOW TRANSPARENT. (First early.)	RED DELICIOUS. (Fall and winter).
YELLOW DELICIOUS. (Fall and winter).	RED JONATHAN. (Fall and winter).
ANOKA. (Second early).	

No Trouble to Order From Buntings'—Read About Our Shipping Season, Terms and Guarantee
Be Sure to Get Your Order in Promptly for Early Spring Shipment

SHIPPING SEASON

We begin filling orders in the fall as soon as our nursery stock is properly matured or ripened for transplanting, usually about October 1st, and continue digging and shipping during the entire fall and spring months. The planting season in the spring is usually over by June 1st, depending upon weather conditions and type of stock involved.

GUARANTEE

We guarantee to dig, pack and ship good, clean, thrifty, well grown trees and plants, in good growing condition. Failure may result from improper planting, lack of moisture, frosts, floods, over-fertilization, etc., and we cannot guarantee continued growth after stock is planted on customer's premises because this is entirely beyond our control. Claims, if any, for damages or inferior stock, must be made within five days after arrival.

TERMS

Cash with order, but orders will be booked if one-fourth value is received with order, remainder to be sent before time of shipment. Remit by money order, registered letter, check or draft. Use our convenient order blank inclosed.

Prices quoted herein are f.o.b. Selbyville. We do not prepay transportation. Express shipments are forwarded collect, the customers paying the delivery agent actual cost upon arrival. To avoid C.O.D. fees on parcel post shipments, we notify the customer the amount due by mail after shipment is made and request remittance.

TIPS ON PLANTING DISTANCES

Number of Trees Required to Set an Acre at Various Distances

	Trees per Acre
Trees planted 35 feet apart each way	35
Trees planted 30 feet apart each way	49
Trees planted 25 feet apart each way	69
Trees planted 20 feet apart each way	109
Trees planted 18 feet apart each way	137
Trees planted 16 feet apart each way	170
Trees planted 14 feet apart each way	222
Trees planted 12 feet apart each way	302
Trees planted 10 feet apart each way	435
Trees planted 8 feet apart each way	680
Trees planted 6 feet apart each way	1,210
Trees planted 4 feet apart each way	2,722
Trees planted 3 feet apart each way	4,840

Number of Plants Required to Set an Acre at Various Distances

1 x 1 ft.	43,560	4 x 2 ft.	5,445
2 x 2 ft.	10,890	5 x 1 ft.	8,712
3 x 1 ft.	14,520	5 x 2 ft.	4,356
3 x 1½ ft.	9,900	6 x 1 ft.	7,260
3 x 2 ft.	7,260	6 x 2 ft.	3,630
4 x 1 ft.	10,890	7 x 1 ft.	6,222
4 x 1½ ft.	7,260	7 x 2 ft.	3,111

Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to an acre.

Distance for Planting—Square Method

Distance for planting different kinds of fruit, trees, etc., square method:

Peach. 20 feet apart each way.

Standard Apple. 35 feet apart each way.

Cherry, Sour. 18 feet apart each way.

Cherry, Sweet. 20 feet apart each way.

Standard Pear. 20 feet apart each way.

Plum. 20 feet apart each way.

Grape Vines. Rows 8 feet apart, 8 feet apart in row.

Blackberries. Rows 6 feet apart, 6 feet apart in row.

Black Raspberries. Garden culture, 4x3 ft.

Black Raspberries. Field culture, 7x4 ft.

Red Raspberries. Garden culture, 4x3 ft.

Red Raspberries. Field culture, 7x3 ft.

Dewberries. Rows 4 feet apart, 5 feet apart in row.

Strawberries, Field Culture. Rows 4 feet apart, 1½ feet apart in row.

Strawberries, Garden Culture. Rows 2 feet apart, 1 foot apart in row.

Asparagus, in Field. Rows 6 feet apart, 2 feet apart in row; plant 6 inches deep.

Asparagus, in Beds. Rows 1½ feet apart, 1 foot apart in row.

BUNTINGS' "CAMERA SHOTS" AT SELBYVILLE, DEL.

BUNTINGS' NURSERIES, Inc.
A Life-Long Plant Enthusiast

Partial view of a block of Norway Maples growing in our nurseries. Note sturdy trunks, symmetrical tops.

A large field of well grown Regal's Privet. A dense low-growing shrub with many uses; see page 12 for complete description.

GOLDEN ARBORVITAE

Our rich soil produces splendid specimen plants. Refer to page 14 for complete information.

JAPANESE HOLLY

This slow-growing broad-leaf evergreen is rapidly increasing in popularity. See page 15 for listing.

Partial view of one of our large fields of one year Asparagus crowns. We grow Asparagus extensively for commercial planters.

Partial view of one of our fields consisting of approximately 12,000,000 Strawberry plants, grown in chemically treated soil.

FRESH FROM YOUR GARDEN EVERY YEAR

ASPARAGUS

The Blue-Blood of the Asparagus World. Extra heavy crowns, long fat roots, strong giant size, green color.

Mary Washington

Originated by the U. S. Department of Agriculture, and has been considered the best variety of Asparagus grown. Commercial growers have been planting Mary Washington exclusively for years. Very strong grower, stock of giant size, green color, rich and tender. It is our opinion that the two principal good points of this variety are, that it is rust-resistant, also a stronger grower than any of the old standards of Asparagus. For this reason we have discontinued growing such varieties as Conover's Colossal, Barr's Mammoth, Giant Argenteuil, etc.

PRICE OF MARY WASHINGTON ASPARAGUS:

	25	50	100	250	1000	5000
Super Size, Extra Heavy	\$4.10	\$6.85	\$11.00	\$22.00	\$55.00	\$265.00
2-yr., No. 1 grade.....	2.25	3.75	6.00	12.00	30.00	145.00
1-yr., No. 1 grade.....	1.50	2.50	4.00	8.00	20.00	95.00

ROBERTS' STRAIN MARY WASHINGTON

This new strain of Mary Washington (selected and developed by Mr. J. L. Roberts) is now being planted almost exclusively here in the east by commercial growers and canneries. Roberts' strain is true Mary Washington although through careful selection the new type produces larger tips and makes a better growth. For the past two years our supply has been sold early to large nearby planters. This season we have reserved a part of our stock for our mail order buyers. The supply is limited, and we recommend that you order early.

PRICE OF ROBERTS' STRAIN MARY WASHINGTON:

	25	50	100	250	1000
Super Size, Extra Heavy	\$4.50	\$7.50	\$12.00	\$24.00	\$60.00
2-yr., No. 1 grade	2.60	4.35	7.00	14.00	35.00
1-yr., No. 1 grade	1.85	3.10	5.00	10.00	25.00

We are the largest growers of Asparagus plants in America. The seed from which our plants are grown is selected from a pedigreed field; it is hand-picked from the sturdiest stalks in the field, assuring you the best strain of Asparagus possible when you buy Buntings' plants.

RHUBARB or Pieplant

MacDONALD RHUBARB. You'll want some of this red, sweet Rhubarb. The new seedless variety, grown from divisions. Outyields and takes less sugar than Myatt's Linnaeus. Mildly acid, bears stalks up to 2 feet tall, red all the way down. **Price:** No. 1 divisions, 75c each; 3 for \$2.10.

MYATT'S LINNAEUS RHUBARB. Early, large, tender and good quality. **Price:** 2-yr., No. 1 plants, 30c each; 3 for 85c; 10 for \$2.50.
